

## 10 Minute Mandatory Grace Periods in parking bays

From 6 April 2015, the council has been giving a 10 minute grace period to vehicles parked in dedicated parking bays, where a period of permitted parking ends and controls then come into force.

### **The 10 minute grace period applies in parking bays in the following instances:**

- at the start of controlled hours when the bay reverts from being uncontrolled to controlled
- upon expiry of a paid for session during controlled hours
- upon expiry of a permitted 'free' parking period during controlled hours (e.g. a maximum stay)

### **The 10 minute grace period does not apply in the following instances:**

- anywhere outside of a parking bay, for example on yellow lines, loading bans, footway, when double parked etc.
- where a vehicle is parked in a permitted parking bay during controlled hours without permission, without a permit or without having made payment (beyond the first 10 minutes of control)

#### **Type of Restriction**

#### **Grace Period**

##### **Parking places – car parks**

Car Parks – Pay and display only  
No initial payment
